Mean temperature, 851.

In a Water-Spout. AN EYE-WITNESS RELATES A THRILLING EXPE-

RIENCE-NEWS FROM THE SOUTH FORK. [From the Denver Tribune.] Through the prompt assistance of the managers of South-Park road the damage done to the track in the Platte Canyon and near Buffalo by the water-spout are speedily being repaired, and the customary travel on the road will be resumed very soon. The telegraph-wires are still down, but a statement of the true condition of affairs has been obtained through the medium of the passengers, who were delayed in consequence of the storm. In conversation yesterday afternoon with a gentleman who was stopping for a few days at the boardinghouse near the saw-mill, at Thompson's, Whenever the above symptoms are found to exist the informant said: We had a terrible hail-storm shortly after 3 o'clock, and stones as big as ben's eggs fell thick and fast. While we were standing at a safe distance from the windows-for nearly every pane of glass was broken-we saw a most remarkable phenomenon, accompanied by a dull, heavy, roaring sound like distant thunder. A large volume of what we afterwards found to be water was seen at the top of the mountain, coming closer and closer, like an immense funnel. As it approached the noise became almost deafening, and one old gentleman who was standing in the to almost the summit. One of the parties,

> word; but finally, becoming more used to will come when there will be avenues under the scene, we began to look around these mountains in every direction, with us and take in the situation. When the trains of cars coming and going throughheight of the excitement had abated some out the day and night; and when we shall little, an anxious mother missed her infant reach under the top of Mount Davidson at child, and instant search was made for the a depth of 3,600 feet beneath its summit, ost little one. After an hour was spent in treasures may be unfolded of which none the water and mud one of the gentlemen of us have any conception." discovered the child in a pool of water, and the stream still coming down the mountain side, lying close up by a rock, which also in the women folks, but on second thoughts supported a large bureau, under which the are made to wonder that they are as good little one sat in the apartment intended for as we find them. Supposing customs were a lower drawer. The child was not a bit reversed, and instead of courting the girls frightened, but seemed to be rather the girls were to court us? Supposing a pleased with its situation, and, strange enough, had hardly a scratch upon it. The joy of the distressed parent can easily be conceived when the wet youngster was placed safe and sound in her arms. The water continued to rush down the gulch for several hours, and we had to your moustache, etc., etc., don't you think Stearns, Jr., was in the race for the \$300 prepare places to sleep on the side of the mountain. Early the next morning I join-less than six months, even if you were ed a number of men who desired to reach far removed from one at the start? Fact is, Denver as soon as possible, and started to we men think nothing of telling a girl over

> wreckers to prepare the track we started on our way home. time? Who doesn't like to heaf his own our way home. Thursday those localities were visited by praises sung? But after marriage these refreshing rains. In the canyon the track was also gutted out in spots, and a good bit of it at other that compounded them. He has taught his places had the bedding washed out and the | wife to believe that he can see nothing good rails twisted. Temporary bridges are be- in her sex outside of herself. And she ing constructed to facilitate the running of never forgets her lesson, as many a married the trains. An engine was run into a ditch | wight could testify. But don't blame her, a short distance this side of Thompson's in consequence of the weakened condition of faith in your lover-vows. The trouble rethe road-bed. Three flat-cars were also carried away some forty feet, with three men on them, who, wonderful to relate, were not at all injured; they only received a

thorough drenching and a big scare. One of the most disastrous difficulties arising from this unexpected accident is the great delay of the mails. There has not yet been a single mail sent out to Leadville since the storm, and as a consequence there has been a great accumulation of matter, which will doubtless be a source of much trouble to the carbonate camp, as well as to the many towns along the line of the road. Such an accident is likely to occur at most any time, and provision should be made that in such an event in future there need be no delay in the mails.

Texas Rond Agents.

ROBBED. [San Antonio Express.]

Yesterday afternoon the Express received a telegram from Uvalde that the east-bound stage-coach on the San Antonio and Eagle-Pass line had been stopped by two highwaymen near Turkey creek and robbed, and after the coach had reached the city last evening our reporter met one of the victims, Mr. J. F. Giles, from whom he obtained a detailed account of the robbery. It was just after dark, and the coach moved slowly over the rugged chalk hills a short distance beyond Turkey creek, when suddenly a man on foot emerged from the dense growth of scrubby bushes by the wayside, and, levelling a revolver on the driver, ordered him to balt. There were at the time but two passengers in the coach, Mr. Giles and an old gentleman by the name of Coben. The driver appeared not to heed the command to halt given by the knight of the road, and allowed his horses to walk on. But the robber backed, still holding his revolver on the ities. Some of these journals talk of Bussia driver, and again cried aloud and meaningly, "Halt, or I'll shoot you!" The driver, known to the boys along the line as 'Long Tom," thereupon reined up, replying to the robber's command, Don't shoot at me, for I've got nothing to hurt you with." As soon as the horses were stopped the man seized the reins lost in Brazil everything they possessed. A from the ground, and at the same time a

marked that you wouldn't know what to do with it." So the watch was returned. An order for the mail-bags was next given, MENORIAL SERVICES AT ST. PETER'S CATHEDRAL and the driver was commanded to throw the bags down. He tossed all the bags off except the way-bag, and informed the robbers that he had done so. "What's the waybag?" inquired one of the fellows, who was by this time busily engaged slicing those to pieces which had been thrown to him. He was told what a waybag meant, when that, too, was demanded. The bags were cut open and the valuable packages selected and laid in a pile by themselves, when the men signified that they were through with their work. The driver

"That's my baby's watch, and then it's so

and disposed to run the risk. It is thought, however, that they had accomplices bidden in the brush hard by prepared for the emer- two.

gency of a resistance. When the flooded mines of the Comstock were relieved by the completion of the Sutro tunnel the inundation of the shafts was reduced 100 feet in eight hours. Mr. Sutro. when honored with a serenade, made the longest speech of his life. "It is almost fifteen years," said he, " since I first proposed the construction of a deep tunnel from the Carson Valley to the Comstock Lode, and almost ten years ago the first pick was struck in beginning a work which has been continued since, by day and night, without interruption, with an expenditure of \$6,000,000. To-day, for the first time, the water from the Comstock mines flowed through the Sutro tunnel, and it gladdened door-for we had all assembled in and all your hearts to see the stream of around; the doorway-exclaimed: "It's a limped water that had caused many of the water-spout!" Out of the house and up mines on the Comstock Lode to lie idle for the opposite hill we ran as fast as possible years in impotent efforts to free them from it, make its appearance at the tunnel enwho was furthest down, in terror turned trance. Some people who had foresight around and beheld the water rushing and sufficient knew more than ten years ago that tearing down the opposite side, carrying the day would come when these mines could with it huge boulders, uprooted trees, and be worked no longer; but the great unall sorts of debris. It struck the house and thinking mass, who only live from day to the saw-mill simultaneously and carried day, looked upon the undertaking of piercthem away like straws, not a vestige of ing these mountains as one so gigantic and and all Billous Complaints, Dyspepsia, and Sick either remaining. We stood there in terror protracted that they ridiculed the idea, and Headache, or diseases of that character, they stand for a long time, hardly daring to speak a gave it but little encouragement. The day

Sometimes we feel inclined to pick flaws sweet creature in bows and ribbons and poetical drapery and stephenotis should come to see you two or three times a week, and should discourse by the hour on the soul-light of your eye, the Jove-like grandeur of your brow, the ineffable glory of you would develop into a jackanapes in walk to the train, about seven miles distant. and over again how much prettier and When we reached there we found it was a sweeter and better every way she is than wrecking train with a coach attached, and all her sisters; and is it unnatural that she after being delayed several hours for the should be goose enough to believe it after a sugar-coated lies return to plague the man sides in you. You have ceased lying to her.

Boston Transcript. Chleago ingenuity seems to have devised a very simple and effectual method of preventing elevator accidents. The bottom of the elevator passage is made an air-tank, and so arranged that a falling elevator-cab compresses the air, gently but completely arresting the violence of the fall. At a trial made with the Chamber of Commerce elevator, 5,000 pounds of pig-iron being placed on the floor of the cab, which weighs two tons, the eggs and glass globes placed on the floor with the iron were unbroken. Two men came down at another trial, one with a basket full of eggs and wine-glasses and one with a brimming glass of water. Nothing was broken, and but little of the water was spilled, and the passengers described the ONE OF THEIR VICTIMS TELLING HOW HE WAS sensation as being like jumping into a havmow. The rush of air caused by the falling elevator made an appalling noise, but did no harm. Such secure alacrity in sinking has never before been heard of .- World.

HOT-WEATHER NONSENSE,-Among the not-weather news sent from here was a report of an Episcopal minister drawing \$15,000 from a lottery and applying it to building a church. It is untrue.—Washington telegram- Uincinnati Commercial. [Maybe it was an advertisement.]

Rumors of a growing coolness between Russia and Germany arelagain in the air. The latest incident upon which stress is laid is the announcement that Chanzy, the French general, has been permitted to view the Russian fortresses and coast defencesa favor not usually granted to foreigners; and in this fact some of the Berlin papers see an indirect menace to Germany-at ali events, a drawing together of France and Russia which irritates German susceptionlas the "future ally" of France.

About a thousand Mennonites, who, to escape military duty inconsistent with their religious convictions, emigrated from Russia to Brazil some three years argo, have returned to their former country. Amply provided with means when they left, they have large number is at this woment encamped

Sanitary Condition of the (ity.

Messrs. Editors,—It seems to me that the Board of Health will have to make an immediate and urgent demand upon the Council for means to enable them to keep this city CLEAN ALL THE SUMMER. It is disgraceful that in a city making such pretensions to cleanliness as Richmond that the streets and alleys should be found in the condition in which they now appear. At least fifty additional hands and one or two dozen carts will be needed for the remainder of the summer. Why do the Board delay demanding them? Is it because a rain is hoped for ! Why, suppose we do get a rain, that will be but temporary relief and cannot do all the work needed. There are many flats where
